

## **Mr. Vijay Joshi**

Qualifications: MBChB, LL.B (Hons) FRCSEd (C-Th), PgCert (Medical Law)

Current Position: Consultant in Thoracic Surgery

GMC: Full: 6163569

Indemnity: MPS: 326054

### **Clinical Practice and Experience**

I was appointed as a Consultant in Thoracic Surgery at the Wythenshawe Hospital; part of the Manchester University NHS Foundation Trust (MFT) in 2018. I completed a 2-year advanced surgical fellowship at the prestigious Mayo Clinic in Minnesota, USA as well as an observership at the University of Toronto and a robotic/minimally invasive fellowship at James Cooke University Hospital prior to being appointed as a Consultant. I am the audit lead for our thoracic department, and I am a member of the Medical Practitioners Tribunal Service (MPTS), which hears regulatory cases brought forth by the GMC. I am the leading clinician for our high-risk lung cancer service, sarcoma / chest wall surgery and emphysema service.

### **Clinical Interests**

My clinical focus is in minimally invasive surgery and general thoracic surgical oncology. I treat patients who require pleural surgery (including effusions, empyema and pneumothorax), thymic surgery, diaphragm palsy and hernia, chest wall tumour resection and reconstruction, lung volume reduction, airway and tracheal procedures as well as emergency thoracic surgery; including chest wall trauma. I have acquired experience in upper gastrointestinal surgery, mesothelioma, and extra-corporeal membrane oxygenation (ECMO) as part of my extensive training background.

### **Teaching and Training**

I frequently present research at professional conferences, and I have also been invited to give talks as an expert in minimally invasive surgery both nationally and internationally. I have mentored both regional and international medical students and I mentor both junior doctors and those ready for consultant level practice.

### **Summary of Publications**

I regularly undertake clinical research and I have over 30 published manuscripts in peer-reviewed journals as well as book chapters. Areas include: lung cancer, chest wall surgery, post-operative complications, pneumothorax, minimally invasive techniques (VATS), thymic surgery, extra corporeal membrane oxygenation (ECMO), robotics, diaphragmatic hernia, wound infections, trauma, post-operative complications, and airway intervention. My research is presented at both national and international forums and I have produced abstracts of a wide variety of topics in thoracic surgery, including those mentioned in my Clinical Interests.

### **Memberships of Professional Bodies and Learned Societies**

Fellowship of the Royal College of Surgeons (Edinburgh)

European Society of Thoracic Surgeons

Medical Protection Society

### **Prizes and Awards**

Gold Award – Northwestern Deanery School of Surgery

Professor Robert Roaf Scholarship Prize – University of Liverpool Medical School

Thomson Reuters Law Prize - Nottingham Law School

Silver award for teaching – University of Manchester Medical School

### **Medico-Legal**

I have undergone expert witness training with Bond Solon and I have attained the Cardiff University Bond Solon (CUBS) Civil Expert Witness Certificate. I have completed a Postgraduate Certificate in Medical Law with Northumbria University Law School and an LL.B (Hons) at Nottingham Law School. I have full medico-legal indemnity and regularly attend medico-legal conferences.
